Email: rahulpawar96110211@gmail.com

LinkedIn: Available on Request

Objective:

Dedicated Computer Application graduate with a dual passion for software development and cybersecurity. Skilled in building secure and efficient software solutions while ensuring the protection of digital assets. Committed to performing vulnerability assessments, penetration testing, and crafting scalable applications that adhere to security standards. Driven to innovate at the intersection of software engineering and cybersecurity, leveraging technical expertise to address complex challenges.

Education:

MCA (Pursuing) (Srinivas University)

BCA (2019-2022): B.S. Channabasappa First Grade College (Davangere University)

PUC (12th) (2015-2016): Sir Vyshnavi Chetana College, Davangere (karnataka state board)

10th (CBSE) (2013-2014): MKET LKEM School, Harihar

Technical Skills:

Operating Systems & Tools: Kali Linux, Parrot Security,
Vulnerability Assessment Tools: Burp Suite, Nessus, ZAP Proxy, Metasploit, Nikto, HTTrack,
Network Analysis: Wireshark, Hping3, Nmap
Frameworks: OWASP Web, OWASP MAS, OWASP API
Graphical Tools: Maltego
Languages : Html, Python, c+, and sql

Professional Projects & Research:

VAPT: Penetration testing with Burp Suite and OWASP, identifying vulnerabilities and recommending fixes.

Web Security Testing: Audited web apps using OWASP tools, ensuring compliance with security standards.

Achievements:

Completed numerous challenges on TryHackMe, sharpening practical skills.

Participated in cybersecurity workshops and conferences, staying updated on trends.
